

TRANSPORTATION
ENERGY INSTITUTE

The Research Fund

The Transportation Energy Institute delivers objective, fact-based analyses of the critical issues facing the transportation energy market today and leading into tomorrow. The Research Fund provides the Transportation Energy Institute with the independent resources necessary to deliver on this mission.

Why Support the Research Fund?

When you contribute to the Research Fund, you give the Transportation Energy Institute the resources it needs to deliver objective, fact-based research and analysis about the transportation energy sector. The Transportation Energy Institute does not seek to persuade or support any specific objective – all research starts with a series of questions, not desired answers. The research is then collaboratively peer reviewed by our Board of Advisors and/or Councils to ensure it presents objective analysis and is relied upon by decision makers in the transportation industry and government to help them reach more informed decisions. By supporting the Research Fund, you will enable the Transportation Energy Institute to continue delivering on this mission and provide additional clarity to key issues facing the market.

What Kind of Research Does the Transportation Energy Institute Publish?

Transportation Energy Institute research primarily addresses the market, economic and consumer elements of the issues affecting the transportation energy sector in a fact-based, objective manner. Subjects are selected by the Board of Advisors and typically fall within one of five categories: Consumer Behavior, Market Trends, Fuel Market Dynamics, Alternative Fuels and Powertrains, and Market Impact of Regulations. The objective is to contribute knowledge on selected topics and to enable decisionmakers to become more informed. Accordingly, all Transportation Energy Institute research is released to the public free of charge.

How Can You Support the Research Fund?

Supporting the Transportation Energy Institute research agenda is an investment to advance knowledge about and within the transportation energy sector. To make it easy, we have created three ways in which you can contribute to the Research Fund:

1. CONTRIBUTE DIRECTLY FROM YOUR ORGANIZATION

2. CONTRIBUTE FROM YOUR ORGANIZATION'S FOUNDATION — If your organization operates a non-profit foundation, you can support the Transportation Energy Institute through this entity. The majority of Transportation Energy Institute research is eligible to receive funding from 501(c)3 organizations.

3. CONTRIBUTE TO AN AFFILIATED FOUNDATION — The Transportation Energy Institute receives support from the following affiliated 501(c)3 charitable foundations: the NACS Foundation, SIGMA Fuel Foundation and Consumer Energy Education Foundation. Contributions made to these organizations on behalf of the Research Fund support their missions as well as that of the Transportation Energy Institute.
